

COVID-19 RETURN TO SCHOOL SCREENING CHART

Anyone (student or staff) who is showing signs or symptoms consistent with COVID-19 (as defined by the current CDC recommendations), or who has had a known exposure to someone with COVID-19, is asked to stay home and not return to school until meeting the following conditions for return.

COVID-19 Screening When can my child come to school?

COVID-19 Symptoms (May appear 2-14 days after exposure)

- Fever or Chills
- Muscle Aches
- Nausea / Vomiting
- Sore Throat
- Diarrhea
- Shortness of Breath
- New Loss of Taste / Smell
- Congestion / Runny Nose
- Fatigue
- Cough
- Headache

Siblings or children of sick or exposed students or staff should stay at home until the sick individual's COVID-19 status is determined.

Students and staff in self-quarantine should be tested if symptoms develop or worsen.

Any positive test results should be reported to the school.

COVID-19 Exposure

Close contact occurs when:

- You were less than six feet for a total of 15 minutes or more (with or without a mask).
- You have direct physical contact with the person (hugged or kissed them).
- They sneezed, coughed, or somehow got respiratory droplets on you.

Students and staff who have tested positive for COVID-19 within the last 90 days do not need to submit a negative PCR test to return.
